In April, our surgical team embarked on a highly successful mission focusing on GYN and General surgeries. The week-long endeavor resulted in a total of 17 GYN surgeries and 38 General surgeries. Our primary objective was to provide quality healthcare services to those in need, and we're delighted to report that all follow-up with patients has been positive, with everyone progressing well post-operation.

Team Dynamics: The atmosphere within our team was nothing short of exceptional, even considering the fact that we had a large delegation from California as pictured to the left. Haha...

Even before touchdown, the excitement was palpable, and it only intensified as we worked together. Every member of the team contributed to a positive and supportive environment, making it a pleasure to be around. We welcomed several newcomers to our team, and by mid-week, they were already discussing plans for future trips and

eagerly making arrangements to bring along friends and colleagues. The spirit of camaraderie and shared purpose propelled us forward each

Highlights and Activities: While our primary focus was on surgical procedures, we also made time for some well-deserved fun and relaxation. Throughout the week, we organized various activities to foster team bonding and create lasting memories. From an exhilarating Easter egg hunt to friendly soccer matches, indulging in choco-bananas, and engaging in a lively trivia game with enticing prizes, there was no shortage of laughter and enjoyment.

These moments of camaraderie not only rejuvenated our spirits but also strengthened the bonds between team members.

TSI Employees' Contribution: The success of our trip was further enhanced by the invaluable support and assistance provided by our dedicated TSI employees. Their unwavering commitment ensured the smooth operation of logistics, allowing us all to focus wholeheartedly on our mission of providing medical care to those in need. Their professionalism and dedication were instrumental

in making our journey immensely rewarding and impactful.

Conclusion: In conclusion, our April surgical trip was a resounding success on all fronts. The combination of outstanding surgical outcomes, a cohesive team dynamic, and enjoyable activities made it a truly memorable experience. As we reflect on our accomplishments, we are filled with gratitude for the opportunity to make a difference in the lives of others. We look forward to future endeavors with optimism and enthusiasm, knowing that together, we can continue to positively impact communities and uphold the values of compassionate healthcare in the name of Jesus.

Sincerely,
Bode Teague
Trip Leader
